

MAINTENANCE ON YOUR CAR BEFORE YOU LEAVE:

Especially if you will be in traveling in your car for a long period of time on the road:

1. Check the Tires are good enough for the trip
2. Oil Change and Filter, lube the Chassis, service the Transmission and Axle and change the Fuel Filter if necessary
3. Check the Shocks (if you have been having a bouncing ride lately.)
4. Front –end aligned?
5. Inspect your Belts, and Hoses – replace if necessary
6. If you have HVAC and it does not seem as cold as it has been – you may want to have it checked out.
7. Of critical important is your Cooling System to be working properly and all its parts are in good condition.

Tools and Spare Parts

- Caravaners will often carry tools and even some spare parts or / and a service manual.
